

THE BEST JUST GOT BIGGER

Introducing the Cyclone[®] XL

From the no. 1 specified water heater family, a Cyclone® built to power the largest commercial applications packed into a compact footprint.

Key Specs

BTU/HOUR INPUTS

750,000 | 1,000,000

GALLON CAPACITY

120

LIMITED TANK WARRANTY

5 years

33-1/8"

SAME 33-1/8" DIAMETER
AS BTH-300, -400 AND -500 MODELS

Unique Stainless Steel Heat Exchanger Design (Patent Pending)

- Combines the toughness of stainless steel and the durability of our patented glass lining protection
- Unique stainless steel primary and secondary heat exchanger promote longer life expectancy
- Exterior glass lined primary heat exchanger and powered anodes provide corrosion resistance
- Perma-Glas® glass-lined, ASME-certified tank

Easy to Install

- Same diameter as 500K BTU/h Cyclone unit
- No "factory start-up" process needed
- Easy to remove top cover for access

Highly Efficient Performance

- Intelligent Demand Response automatically adjusts the differential set point to increase hot water during large demand periods
- ENERGY STAR® qualified with 97% thermal efficiency

iCOMM™ Connectivity
onboard WiFi and
Remote Monitoring
