

NEVER DESCALE AGAIN.

EVER.

Introducing X3® Scale Prevention Technology. A. O. Smith has applied this cutting edge technology to its existing suite of contractor-preferred condensing gas tankless and noncondensing concentric vent products to prevent scale buildup—meaning virtually zero lifetime descaling maintenance and three times longer product life.

X3® Scale Prevention Technology

- Extends the life of the unit up to three times longer*
- Eliminates the need for regular scale-related maintenance
- No warranty exclusions for hard water
- Maintains “like-new” performance longer

*Compared to other tankless models without X3 Technology

Condensing Features:

- Highly efficient performance
- Outdoor and LP units available
- Ultra-Low NOx emissions
